tution. So far as known, not one of the many thousanks of former students is now out of employment, and so far as known no ione in a thousand of those who have been sent for years to Europe or the North, is qualified on returning house to enter a business house, although thousands of dollars have been expended on his education. A word to the wise, is sufficient.

pended on his education. A word to the wise, is sufficient.

The city is now healthy. Persons from 12 to 16 years of age attend such branches as they may wish. By having a special Professor for each branch, three fourths of the student's time is saved. Those who have entirely neglected their education for the past years can here be prepared for any stuation in business, whether as Book-keeper, Merchant or Clerk in from three to six months. The Agricultural and Mechanical Departments will be opened as authorized by the Charter, as soon as suitable Professors are secured to take charge of them. Nothing is now so much needed in the South as scientific clucation in these departments of industry, which produce the wealth of the country. Students intended for this College should bring this circular or special directions, as ever winter there are temporary establishments opened. Young students should put their funds in the lands of their merchant, or the President of the College. Citizens and strangers are invited to call. College effice. Room No. 7.

A business education that enables one to earn \$2000 or \$2000 annually, is the best fortune parents can give their sons. As the College has been in successful operation for more than a quarter of a century, and the practical plan here pursued received the unanimous commendations of the press and business community, and as several thousands of its former students are now in business in this city and over the country, it is keemed useless to go into an extended explanation of the plan or merits of the Institution.

Having made extensive preparations, are now pre-pared to Manufacture all kinds of Stationery Machi-nery Special attention has been given to Construc-tion of Patterns for vertical direct acting gang Saw wills of the most improved plan articles desirous of purchasing Saw Mill Machinery of the above descrip-tion of for Circular waw wills, we requested to call and examine the Engines now being manufactured for that purpose Moddications to suit purchasess will be made without extra charge. As we intend to devote a portion of our establishment to this special-ity, we challenge competition. THE NOVELTY IRON WORKS (formerly the establishmant of atterson & c an) having the patterns of over twenty years accumulate a still or casting of the same without any charge for patterns,
